MESSAGE FROM THE PRINCIPAL'S DESK

Dear Parents,

A refreshing start to the new academic year brings in hope of joyful learning and exploration of potential talents and varied opportunities. As we return to school after 2 years of setback let us look into the future with hope and aspiration of achieving our goals as a community.

We understand that returning to normalcy is quite challenging but our resilience as a community should be stronger. As the pandemic subsides, returning to the physical grounds of a school is important and hopefully a welcoming step to a new focus on rebuilding the basics for children. We need to develop this adjustment switch which would help us get stability and sanity to adapt to the unprecedented pandemic scenario. Let us start that process of reconnecting, reengaging because there is more to a school than just learning. There are all these social relationships, trust, fun that we need to rebuild.

Looking back on the last year, many things have been tried and the most successful things were the exercise to impart learning through classes, activities and establishing two-way communication which helped us to enhance the abilities and capacities of our students. We anticipate that together we create for our children a new horizon of learning and development.

With Warm Regards

Rev. Fr. Jas Elanjikal

(Principal)
